[GND | INTACTO | SAY WHAT? | ON EDGE SOCIETY | NERVOUS | OFF | RTE 2FM]

DJ and producer S-File is recognized as one of the proponents of contemporary techno. Widely associated with iconic trademarks including GND Records, S-File stays true to his roots by consistently innovating his interpretation of electronic music, integrating art with the scene. As a passionate DJ, S-File inspire his listeners with sounds both reduced and rough, balanced by surprising moments throughout his sets. Between pure Techno, banging House tracks old and new of the past 30 years.

In 1994 S-File began his career as a DJ and also his career as a radio DJ with his own radio show. The show reflected the current tracks of the international House and Techno scene. Parallel, S-File starts with his own events. Additionally, S-File also runs GND Records, a label founded in June 2011.
